

## Medium Flashlights

### #2000 SUPER SABRELITE™

The Super SabreLite™ is made of unbreakable ABS material with a hi-impact polycarbonate lens. The SabreLite™ has an exclusive state-of-the-art laser spot xenon lamp module that produces a tightly focused white light beam. The SabreLite™ includes a belt clip, stainless steel split ring and black lanyard allowing the flashlight to be attached to a pocket, belt or a hand. Accidental turn on and mechanical switch failure is eliminated because of the rotary on/off switch. It also includes a safety battery tray with 3C cell alkaline batteries (not included) in order to avoid accidents if the cells are inverted. Submersible to 500 feet (150 meters). You break it, we replace it... forever.
