

Explosion-protected mobile phone x.com 21x -Ex

...and it gets even better!

Following in the success of the **x.com 200 -Ex** is the **x.com 21x -Ex** series, which boasts even more features, more options and enhanced resilience. Welcome to the next level of Zone 2 telephony.

The **x.com 21x -Ex** series lets you choose the features you want.

Do you want the full works? No problem! The **x.com 212 -Ex** is a fully functional mobile phone with integrated camera.

Cameras prohibited? That's not a problem either! The **x.com 210 -Ex** is the phone for you. This model is not inferior to its sibling in any way.

These valuable companions will make sure you're always safe. The phones, which operate between -20 °C and +55 °C, feature triband functionality and ensure you're always available, even if they are dropped. They can withstand falls onto concrete from up to two metres

without a problem. The IP67 protection rating means that if your phone gets a little damp and goes under water, you won't lose your connection!

The extremely scratch-resistant display can even withstand the keys in your pocket. And an LED lamp means you won't have any trouble finding the keyhole in the dark.

Furthermore, the Java 2.0 Micro Edition makes your **x.com 21x-Ex** even more versatile. A-GPS functionality and a Micro SD card slot enhance the phone's range of applications even further. Naturally the fast EDGE connection is always available.
